

One Identity Manager and Epic Integration 9.1.3

Release Notes

13 May 2024, 11:43

This document provides information about the One Identity Manager and its connection with Healthcare systems.

For the most recent documents and product information, see the [One Identity Manager documentation](#).

About this release

This release provides the following functionalities:

- Synchronization of data from Epic healthcare to One Identity Manager.
- Managing the data after the synchronization is completed from the Epic healthcare.
- Provisioning the data to Epic Healthcare.

Supported platforms

EPC module can be configured on One Identity Manager 9.1.3.

NOTE: The System Requirements applicable to the One Identity Manager applies to Epic systems also.

New features

New features from the integration of One Identity Manager and Epic Target system:

- An administrator of One Identity Manager can synchronize the data from Epic target system into the One Identity Manager.
- An administrator of One Identity Manager can create, update and delete an EPCUser through One Identity Manager using the EPC module which will be provisioned to target system.
- An administrator of One Identity Manager can assign EmpTemplate, SubTemplate External Identifiers, Identity ID and Managers to an EPC User which will be provisioned to target system.
- An administrator of One Identity Manager can synchronize and provision the link between Epic EMP and SER records.

Globalization

This section contains information about installing and operating this product in non-English configurations, such as those needed by customers outside of North America. This section does not replace the materials about supported platforms and configurations found elsewhere in the product documentation. This release is Unicode-enabled and supports any character set. It supports simultaneous operation with multilingual data. This release is targeted to support operations in the following regions: North America, Western Europe and Latin America, Central and Eastern Europe. The release is localized in the following languages: German. This version has the following capabilities or constraints: Other languages, designated for the Web UI, are provided in the product One Identity Manager Language Pack.

About us

One Identity solutions eliminate the complexities and time-consuming processes often required to govern identities, manage privileged accounts and control access. Our solutions enhance business agility while addressing your IAM challenges with on-premises, cloud and hybrid environments.

Contacting us

For sales and other inquiries, such as licensing, support, and renewals, visit <https://www.oneidentity.com/company/contact-us.aspx>.

Technical support resources

Technical support is available to One Identity customers with a valid maintenance contract and customers who have trial versions. You can access the Support Portal at <https://support.oneidentity.com/>.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. The Support Portal enables you to:

- Submit and manage a Service Request
- View Knowledge Base articles
- Sign up for product notifications
- Download software and technical documentation
- View how-to videos at www.YouTube.com/OneIdentity

- Engage in community discussions
- Chat with support engineers online
- View services to assist you with your product
