

One Identity Manager 8.1.5

Release Notes for Starling Connect Connector Module

13 July 2021, 12:38

This document provides information about Starling Connect Connector used to connect to Starling Connect Platform using the capabilities of SCIM Connector and configurations from the Starling Hybrid Subscription.

For the most recent documents and product information, see the One Identity Manager documentation.

About this release

This release introduces a new One Identity Manager connector, the Starling Connect Connector, which can be used to create a synchronization project to synchronize data from the Starling Connectors.

Supported platforms

Starling Connect Connector Module can be configured with One Identity Manager 8.1.5

NOTE: The System Requirements applicable to the One Identity Manager applies to Starling Connect Connector Module also.

Supported features

Supported features for One Identity Manager SCC module:

• Creating a SCIM synchronization project for Starling Connectors.

Resolved issues

The following is a list of issues addressed in this release.

Table 1: General resolved issues

Resolved Issue	Issue ID
The error handling in SCC module is enhanced to display the detailed error message in the client.	240772

System Requirements

Before installing One Identity Manager, ensure that your system meets the following minimum hardware and software requirements.

Database Server Minimum requirements

Table 2: Database Server Minimum requirements

Requirement	Details
Processor	8 physical cores with 2.5 GHz+ frequency (non- production)
	16 physical cores with 2.5 GHz+ frequency (production)

Requirement	Details
	NOTE: 16 physical cores are recommended on perform- ance grounds.
Memory	16 GB+ RAM (non-production)
	64 GB+ RAM (production)
Free disk space	100 GB
Operating system	Windows operating systems
	Note that the requirements from Microsoft for the SQL Server version are installed.
	UNIX and Linux operating systems
	Please note the minimum requirements given by the operating system manufacturers for Oracle databases or SQL Server databases.
Software	SQL Server
	 SQL Server 2019 Standard Edition (64-bit) with the current cumulative update
	 SQL Server 2017 Standard Edition (64-bit) with the current cumulative update
	SQL Server 2016 Standard Edition (64-bit), Service
	 SQL Server 2016 Standard Edition (64-bit), Service Pack 2 with the current cumulative update NOTE: The SQL Server Enterprise Edition is

NOTE: The minimum requirements listed above are considered to be for general use. With each custom One Identity Manager deployment these values may need to be increased to provide ideal performance. To determine production hardware require-ments, it is strongly recommended to consult a qualified One Identity Partner or the One Identity Professional Services team. Failure to do so may result in poor database performance.

For additional hardware recommendations, read the KB article https://sup-port.oneidentity.com/identity-manager/kb/290330/how-toconfigure-settings-as-per-the-system-information-overview, which outlines the System Information Overview available within One Identity Manager.

Service Server Minimum requirements

Requirement	Details
Processor	8 physical cores with 2.5 GHz+
Memory	16 GB RAM
Free disk space	40 GB
Operating system	Windows operating systems
	Windows Server 2019
	Windows Server 2016
	Windows Server 2012 R2
	Windows Server 2012
	• Windows Server 2008 R2 (non-Itanium 64 bit)
	Service Pack 1 or later
	Linux operating systems

Table 3: Service Server Minimum requirements

- - --

Requirement	Details
	 Linux operation system (64 bit) supported by the Mono project or Docker images provided by the Mono project.
Additional Software	Windows operating systems
	 Microsoft .NET Framework version 4.7.2 or later
	NOTE: Refer to the recommendations of the manufacturer of the target system to connect to the target system.
	Linux operating systems
	Mono 5.14 or later
	NOTE: In newer versions of Mono, starting with version 6.10, set the MONO_PATH environment variable explicitly to the current install directory to ensure that all referenced assemblies can be loaded.

Client Minimum requirements

Table 4: Client Minimum requirements

Requirement	Details
Processor	4 physical cores with 2.5 GHz
Memory	4 GB+ RAM
Free disk space	1 GB
Operating system	Windows operating systems
	• Windows 10 (32 bit or 64 bit) version 1511 or later
	• Windows 8.1 (32 bit or 64 bit) with the current

Requirement	Details
	service pack
	 Windows 7 (32 bit or non-Itanium 64 bit) with the current service pack
Additional Software	Windows operating systems
	• Microsoft .NET Framework version 4.7.2 or later
Supported browsers	Internet Explorer 11 or later
	Firefox (release channel)
	Chrome (release channel)
	 Microsoft Edge (release channel)

Web Server Minimum Requirements

Table	5:	Web	Server	Minimum	requirements
-------	----	-----	--------	---------	--------------

Requirement	Details
Processor	4 physical cores with 1.65 GHz+
Memory	4 GB RAM
Free disk space	40 GB
Operating system	 Windows operating systems Windows Server 2019 Windows Server 2016 Windows Server 2012 R2 Windows Server 2012 Windows Server 2008 R2 (non-Itanium 64 bit) Service Pack 2 or later
	Linux operating systems

Requirement	Details
	 Linux operation system (64 bit) supported by the Mono project or Docker images provided by the Mono project. Please note the operating system manufacturer's minimum requirements for Apache HTTP Server.
Additional Software	Windows operating systems
	Microsoft .NET Framework version 4.7.2 or later
	 Microsoft Internet Information Service 7 or 7.5 or 8 or 8.5 or 10 with ASP.NET 4.5.2 and the role services:
	 Web Server > Common HTTP Features > Static Content
	 Web Server > Common HTTP Features > Default Document
	 Web Server > Application Development > ASP.NET
	 Web Server > Application Development > .NET Extensibility
	 Web Server > Application Development > ISAPI Extensions
	 Web Server > Application Development > ISAPI Filters
	 Web Server > Security > Basic Authentication
	 Web Server > Security > Windows Authentication
	 Web Server > Performance > Static Content Compression

• Web Server > Performance > Dynamic Content Compression

Linux operating systems

- Mono 5.14 or later
- NTP Client
- Apache HTTP Server 2.0 or 2.2 with following modules:
 - mod_mono
 - rewrite
 - ssl (optional)

Application Server Minimum Requirements

Requirement	Details
Processor	8 physical cores with 2.5 GHz+
Memory	8 GB RAM
Free disk space	40 GB
Operating system	 Windows operating systems Windows Server 2019 Windows Server 2016 Windows Server 2012 R2 Windows Server 2012 Windows Server 2018 Windows Server 2008 R2 (non-Itanium 64 bit) Service Pack 1 or later

Table 6: Application Server Minimum requirements

Linux operating systems

 Linux operation system (64 bit) supported by the Mono project or Docker images provided by the Mono project. Please note the operating system manufacturer's minimum requirements for Apache HTTP Server.

Additional Software	Windows operating systems
	Microsoft .NET Framework version 4.7.2 or later
	 Microsoft Internet Information Service 7 or 7.5 or 8 or 8.5 or 10 with ASP.NET 4.5.2 and the role services:
	 Web Server > Common HTTP Features > Static Content
	 Web Server > Common HTTP Features > Default Document
	 Web Server > Application Development > ASP.NET
	 Web Server > Application Development > .NET Extensibility
	 Web Server > Application Development > ISAPI Extensions
	 Web Server > Application Development > ISAPI Filters
	 Web Server > Security > Basic Authentication
	 Web Server > Security > Windows Authentication
	 Web Server > Performance > Static Content

Compression

• Web Server > Performance > Dynamic Content Compression

Linux operating systems

- Mono 5.14 or later
- NTP Client
- Apache HTTP Server 2.0 or 2.2 with following modules:
 - mod_mono
 - rewrite
 - ssl (optional)

Product licensing

Use of this software is governed by the Software Transaction Agreement found at www.oneidentity.com/legal/sta.aspx. This software does not require an activation or license key to operate.

Upgrade and installation instructions

The procedure to install Starling Connect Connector Module is similar to the procedures involved in installation of other One Identity Manager modules. For information on the installation of Starling Connect Connector Module module, refer the *Installing One Identity Manager Components* section of the *One Identity Manager Installation Guide*.

More resources

Additional information is available from the following:

- One Identity Manager support
- One Identity Manager online documentation
- Identity and Access Management community
- One Identity Manager training portal

Globalization

This section contains information about installing and operating this product in non-English configurations, such as those needed by customers outside of North America. This section does not replace the materials about supported platforms and configurations found elsewhere in the product documentation. This release is Unicode-enabled and supports any character set. It supports simultaneous operation with multilingual data. This release is targeted to support operations in the following regions: North America, Western Europe and Latin America, Central and Eastern Europe. The release is localized in the following languages: German. This version has the following capabilities or constraints: Other languages, designated for the Web UI, are provided in the product OneIM Language Pack.

About us

One Identity solutions eliminate the complexities and time-consuming processes often required to govern identities, manage privileged accounts and control access. Our solutions enhance business agility while addressing your IAM challenges with on-premises, cloud and hybrid environments.

Contacting us

For sales and other inquiries, such as licensing, support, and renewals, visit https://www.oneidentity.com/company/contact-us.aspx.

Technical support resources

Technical support is available to One Identity customers with a valid maintenance contract and customers who have trial versions. You can access the Support Portal at https://support.oneidentity.com/.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. The Support Portal enables you to:

- Submit and manage a Service Request
- View Knowledge Base articles
- Sign up for product notifications
- Download software and technical documentation
- View how-to videos at www.YouTube.com/OneIdentity
- Engage in community discussions
- Chat with support engineers online
- View services to assist you with your product
