One Identity Safeguard for Privileged Sessions Foundation Services

Hit the ground running with foundation services

Whether you need expert assistance or your IT staff just don't have enough hours in the day, you can leverage a One Identity Services (OIS) expert to help your organization set up and configure One Identity Safeguard Privileged Session.

When you bring in an OIS expert, you get:

- Accelerated time to value with guided setup
- Assured that you benefit from proper baseline configuration
- Field-tested best practices guided

Key Services Features

- Initial configuration and set up
- Go-live readiness
- Expert training and guidance
- Documentation of the built system

Overview

One Identity Safeguard for Privileged Sessions Foundation Services includes a five-day engagement during which an OIS expert introduces the basics of your One Identity Safeguard solution and prepares your team to fully leverage its capabilities. Our OIS expert begins with assessment and configuration, then helps your team set up target assets (a maximum of five targets). This offering is ideal for implementations that do not require significant customizations.

Activities

The planned activities include:

Project Initiation

- Review of business and technical requirements
- Overview of One Identity Safeguard for Privileged Sessions capabilities

Configuration

- Basic configuration (network, smtp, ntp, snmp, syslog, system backup and archive)
- User management and authentication

“We rely on the excellent advice from One Identity Services. At any time over the past nine years, I’ve been able to ring my account manager and organise a meeting to discuss our needs, come up with a creative solution, and put that into practice.”

Anders Kok
Service Delivery Manager

Setup

- Applicable protocol configuration (RDP, ssh, telnet, etc.)
- Up to five (5) policy per protocol

Knowledge Transfer

- Appliance interfaces
- Operation and maintenance
- Basic troubleshooting and upgrade
- User and rights management
- Configuration review of the protocols
- List, search and replay recorded sessions

Assumptions & Prerequisites

- Customer is responsible for additional target assets and associated accounts
- Prior to the beginning of the OIS engagement, One Identity Safeguard PSM appliances are installed and powered on
- The activities will be performed between 8 a.m. and 5 p.m. (local time), Monday through Friday, excluding holidays
- Customer must commit the appropriate technical resource(s) to assist the OIS expert as required to complete the activities and deliverables
- Customer will provide adequate and appropriate access to servers, systems and data
- Customer will identify a single point of contact to ensure that all post-engagement tasks are completed within the specified time
- A checklist of these requirements will be provided by One Identity

Limitations

This offering does not include:

- Customizations to the UI or other components
- Architecture, design or custom integrations with other applications

Special Notes

The duration of this service may vary based on many factors, including, but not limited to, the complexity of the environment. The information above is a general description of professional services that OIS may provide during the services engagement. The actual services to be provided during your engagement will be specified.
